**SERVICE, STREETS, SIDEWALKS & ROAD DRAINS
COMMITTEE MEETING MINUTES
JANUARY 19, 2016**

Present: Committee members Lynda Appel, chairperson; Ken Brady and Dennis Sullivan.

Also present: Council President Michael Killeen, Councilmember Mark Getsay, Director of Engineering Bob Kelly, Public Service Director Paul Quinn.

The meeting convened at 7:42 p.m.

I. Discuss the following 2016 roadway projects:

- 1) 2016 crack and joint sealing hot applied
- 2) 2016 concrete roadway rehabilitation with catch basin repair
- 3) 2016 asphalt roadway rehabilitation
- 4) Detroit Road resurfacing
- 5) Bradley Road 2016 waterline replacement and roadway rehabilitation
- 6) Canterbury and Detroit Road intersection widening

Mr. Kelly presented the six projects in great detail. He included why these projects were selected. He mentioned specifically that the residential asphalt crack and joint seal list is the shortest in recent years due to improved technologies and techniques. The timing of all projects was discussed. Basically, all will be completed between April and October 2016 with different start/stop points.

Council had questions regarding the specific timing of projects and any interruptions to our residents and businesses. Mr. Kelly was encouraged to communicate with all parties involved, and he assured Council that he always does. He also offered that if residents have questions, they should contact the City for specific road delays and timing information.

Mr. Killeen also asked Mr. Kelly to discuss the citywide closed loop signal project and its impacts to the community. Mr. Kelly discussed how, ultimately, the smart signals will regulate traffic smoothly through Westlake, but cautioned, as with anything new, there will be some set-up delays.

Mr. Brady moved, seconded by Mr. Sullivan, to recommend that Council approve the 2016 Roadway program as outlined by Mr. Kelly. The motion passed 3-0.

The meeting adjourned at 8:55 p.m.

Respectfully submitted,

Lynda M. Appel
Chairperson
